Get Your Motor Running

Most men are born with a lust for women and for things that go fast. Put the words *sex* and *drive* together, and you're onto something. In fact, a beautiful woman and a beautiful automobile have a few things in common. Both have hot bodies, with sensuous curves and an occasional angle. Both have personalities of their own, with idiosyncrasies and occasional bursts of fury. Both are built for speed, once you strap yourself in. And both can bring out depths of emotion in you that you didn't know existed—love, lust, fear, thrills, all raised to the highest order. Thus, it makes sense that hot women and sexy cars end up in pictures together. It's a tradition of photography that goes back decades, and certainly one that Playboy has toyed with for years. In this one-of-a-kind Playboy Special Edition, we bring you a bevy of equisite models—cars and women communing. We collected these shots from our many foreign editions in Europe, South America and the Far East, for your private viewing pleasure. Just don't look at this Special Edition while you're driving, okay? Now turn the page and we'll put the pedal to the metal.
